

# TAXI INFORMATION

With the decline in numbers of Rank based taxi's operating particularly at night over the last 15 years we would highly recommend you really pre-plan your journey home these days, use one of the many APP's or call one of the numbers below to get you home safe.

For several years I have queried the drop in Rank based taxis numbers even to a Scottish Government level. The reasons for this are long, complicated and varied but if I said that there is now only approx 60 rank based cabs remaining to service the **whole** of West Lothian hopefully you will see the chances of getting a cab late at night in particular are slim or you may wait a while on one coming to the rank to get you home. In comparison there are now over 400 registered private hire - book only cars operating.

Hopefully this Listing and links will help you plan and sort your trip home after enjoying a top night at Scotland's Longest Running Rock Club. All of the info was simply looked up online via the likes of Google and app stores. None are linked or associated with the venue.  
This is just a simple guide to help you arrange your transport to and from the venue.

WEST LOTHIAN TAXIS - 01506 444444

SMART CABS - 01506 444777
